

Complete Program Available for the Fall 2014-15 School Year

ByDesign

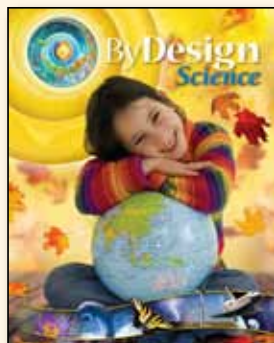

A Journey to Excellence through Science

By Design is built on a foundation of inquiry that encourages wonderment, questioning, collaboration, and exploration of multiple resources to conduct research and investigations.

ByDesign is your new inquiry based science program for grades 1-8. The program aligns with the new science standards and has been developed for traditional and nontraditional classrooms. For a limited time, receive special discounts and bonus materials with your purchase. *Place your orders today!*

All teachers will need a **Teacher Edition** for each grade level that you are teaching. All students will need a **Student Edition** and **Student Science Journals**. Based on your classroom needs select science journals for a traditional 1-8 classroom or science journals for Cycle 1 multi-grade 1-4 or 5-8 classroom.

Classroom Science Kit

See **Order Form** for **Special Pricing** for your traditional and multi-grade kits.

The **Science Kits** (grade level and multi-grade) contain enough materials for groups of four. This supports collaborative learning and offers a flexible teaching environment. The kits contain the items you will need for your classroom, in order to conduct the labs referenced in the **Student Science Journals**. Some science equipment, common household materials, and food items may not be included. Live bait will need to be ordered.

Ordering is EASY!
